Hi Made and Rina,

It's now almost two weeks since our wedding celebration at Mozaic, and it's high time that I dropped you both a mail to thank you and the entire Mozaic team for making our wedding such a successful and memorable event. We have not heard a single remotely negative comment from any of our guests, in fact only glowing praise!

When we were planning our wedding, our initial intent was to hold the celebration in Singapore, but we both wanted the emphasis to be on great food and wine in a more intimate environment as opposed to the usual hotel wedding package that is so popular in Singapore! We dine out a lot, and know plenty of excellent restaurants, but everywhere we looked at had some sort of a compromise involved such as great food, but no place for the ceremony, or no space for pre dinner cocktails, etc. We were really struggling, and over dinner one night, Simon mentioned "I wish we could find somewhere like Mozaic", as we'd both been so impressed with your restaurant when we dined there during our short vacation trip to Bali last July. Until that moment we'd not given any thought to holding our wedding anywhere other than Singapore, but the more we thought about it, the more liked the idea, and we figured that although it would mean our friends from Singapore taking a short flight to Bali, it would make it much more special for everyone.

Anyhow, we sent you an enquiry not knowing what would develop, and your initial proposal immediately got our attention, and everything from the general format of evening, to the menu options was pretty much in line with that we were thinking. As Simon mentioned in his speech during the wedding dinner, we were of course concerned over how easily such an event could be coordinated with me in Japan, Simon in Singapore and you guys in Bali, but we need not have worried. The discussions and negotiations went smoothly, and our pre-wedding visit and food tasting served to iron out all the final details, and I would thank you for your thoughtful suggestions such as the traditional Balinese flower girls for my walk down the aisle, the *rindick* band and traditional dances during the per-dinner cocktails, etc., these were things that we had not thought of, but which added to the event. Not to mention your managing to source the special wines for Simon!!

So, to the event itself. What can I say other than wonderful!! The idea of having four distinctly different "venues" all within the Mozaic property worked really well. The ceremony in the garden was beautiful, even though I couldn't stop crying during the vows, and I must complement your florist, as the flowers were stunning. The Workshop and patio made a great venue for the pre-dinner cocktails, and the set up in the dining pavilion for the dinner was excellent. The transformation of the shop into a bar and lounge with live band for the after dinner party worked very well, though we should apologize for keeping your staff so late!

The food. My first visit to Mozaic last July with Simon was without doubt the culinary highlight of our trip. Every course had a 'wow' factor, and I even took photo's of each dish so I wouldn't forget what we ate! We were obviously very keen that our guests would feel the same way about the food at our wedding, and we were certainly not disappointed. The dinner was fantastic, and all our guests were extremely complimentary about the food, wine and service, with many "we must come back again" comments.

All in all, our wedding was just perfect, and I can only thank you and your cheerful, friendly and professional team once again for making it such a successful and memorable event. And of course, we hope to see you again soon in the not too distant future!

Many thanks.

Izumi & Simon
