Hello Made, Rina and James,

We wanted to make contact to extend more than a customary thank you for making Tuesday 19th such a wonderful evening. We hadn't initially thought that Mozaic could be a venue to host a wedding ceremony and reception and came for dinner on the back of several recommendations received from friends in Singapore .

Having sat in the garden one evening and been on the receiving end of wonderful food, wine and hospitality it occurred to us that "wouldn't it be amazing to get married in the garden and sit down with friends and family to a reception in the rest au rant".

It was not until we met with Rina and Made that the 'maybe' became a genuine option and when we new this we quickly quickly agreed a date.

It was with all of you that we spent time with from a planning perspective. You were all not only delightful to engage with but knew your stuff and gave great advice on food, wine, set up, timings etc.

By this stage we were back in Singapore and busy with work and the input needed from us really was minimal. Rina was great at keeping in touch, giving us options when needed and politely nudged us when she needed some answers.

We never wanted a fussy wedding - just something that would allow 50+ friends and family to have a wonderful evening together and for us to exchange our vows in front of them all. The garden, the local priest, the drinks as it got dark and the wonderful food just made the perfect stage. There really is no need to change anything at Mozaic - it is all there in the gardens, the rest au rant the food and the staff. It has gold old fashioned 'class' stamped all over it ! You made it all very easy for us.

So thank you to you all. As you get a bit older you really want to say thank you to all the great friends and family you have and who have supported you over the years. Mozaic really was perfect in every sense and you exceeded expectations at every turn. We know 53 people got back on planes having had a wonderful holiday and experienced something rather special.

We will of course be back at some point and wish you every success in developing the business there. Please feel free to use any pictures and any comments and if you want us to word a quote or a reference to something in particular please do ask. It is hard to explain how perfect it all was so we may not have done you or Mozaic justice above.

Kind regards
Tim and Suzie

These are a few quotes that I have taken from mails we have received from friends:-

"You certainly know how to host a wedding - it was amazing" - friend from Australia
"The coolest, classiest and most chilled wedding I have ever been to" - Tim's Australian cousin
"A truly amazing setting" - Mother of the bride
